

Flakes are more durable printed on card stock, but may be printed on plain paper and glued to cardboard later.

You may color your frame or leave it white.

Cut out circle in the middle of snowflake with x-acto knife or scissors.. Place picture behind frame. Secure picture with tape or glue a backing over the picture.

Laminating the picture helps them last for years.

When I make these, I laminate the whole frame with the picture inside. I add white glitter to make the snowflake shine.

Punch a hole in the hat and hang with yarn or ribbon.

There are two colored snowflakes with hats and two black and white.

Also included 2 plain snowflakes.
