Word association game,
by: Aunt B

Aunt B’s Word Chain
Start the chain with any word. In the next link name anything that has to do with the word before.

Example: in this chain the starting word is (birds) I thought of the word (feathers) some other words might include (chicken, turkey, fur, beak, etc.) After writing the word (birds) I then had to think of another word (associated with) to do with bird. I thought of the word, (nest) from the word, (nest) I went to (tree) and from (tree) to (leaves) and so on.

RULE: You cannot use a word twice. You may make a chain as long as you would like to. But you can never reuse the word in the same chain.
Now it's your turn. Here are two word chains. Your first word is (frog) write a word in the next link that has something to do with the word (frog). (Or) (associated with the word frog) In the second chain the first word is (table.)
A Word Chain Challenge

Now that you know how to do a word chain. Here's a longer chain. The first word is (kite.) Good Luck!
